

40-41 Campaign

Terms and Conditions

Terms and Conditions for the 40–41 Campaign

To benefit from the special offers of the “40–41 Campaign” at ITBFX Broker, a set of initial requirements and rules has been established. By following these guidelines, all users can take advantage of the Campaign’s offers as well as the trading services provided by ITBFX Broker.

Introduction to the 40–41 Campaign

All verified traders at ITBFX Broker during the Campaign period are eligible to receive the Deposit bonus and take part in the Fund refund plan.

40% Deposit Bonus

Throughout the Campaign, any deposit of at least 100 USD will receive a 40% bonus. This bonus is Non-withdrawable and Non-Losable in trades.

41% Fund refund plan

If a trading account is Margin call within one month of the user’s first deposit made during the Campaign, 41% of that deposit will be returned to the user’s account as trading credit (bonus).

Campaign Dates

- Start: Monday, 24 Feb 2025
- End: Friday, 4 May 2025

How to claim 40–41 Campaign Offers

Verified traders can claim for the bonus and Fund refund plan by making a deposit during the Campaign period. Since both offers require a request, you may either use the “Bonus” section of your account dashboard and select the “40–41 Campaign” option or submit a ticket to customer support.

Once your request is processed, the bonus will be credited to your trading account within 48 hours.

Rules and Regulations for the 40–10 Campaign Bonus

- The 40% Deposit bonus is provided as non-withdrawable, Non-Losable credit, and will be deducted from the user’s account once the Campaign period ends.
- Both the Deposit bonus and the Fund refund plan must be used within one month of receiving the credit.

- Only trading in currency pairs, energy, metals, and stock indices is allowed under this bonus. Cryptocurrency and Shares trading are not covered, and any profits made from these instruments will be deducted from the user's account.
- In all Cash symbols, due to the difference in Contract Size, every **10 lots traded** in these symbols is equivalent to **1 standard lot**.
- Completing the KYC process is mandatory for all users who receive the Deposit bonus and claim the Fund refund plan.
- Trades lasting less than one minute (the interval between opening and closing a position) are considered a violation, and all profits from such trades will be withdrawn from the user's account.
- Once the first withdrawal request is submitted, it initiates the bonus settlement process and brings the Fund refund plan to an end.
- The maximum bonus available under this plan is 4,000 USD.
- The Fund refund plan applies only to the amount of the first deposit made during the Campaign period.
- Once a user has received credit under the Fund refund plan, they are not permitted to deposit additional funds into that trading account. If any further deposits are made, both the credited amount and any associated profits will be deducted from the user's account.
- Each user can receive credit under the Fund refund plan a maximum of two times during the Campaign.

Conditions for Withdrawing Profits Earned with the 40% Deposit Bonus

- If all specific requirements detailed in this document are met, and all trading rules and regulations of ITBFX Broker are followed, any profits up to twice the deposited amount can be withdrawn without any additional.
- To withdraw profits more than twice the deposited amount, for every USD 10 of extra profit, at least one standard lot must be traded with a minimum price fluctuation of 10 pips (difference between the opening and closing price) and a minimum trade duration of 10 minutes.
- All requests to withdraw profits beyond twice the deposited amount must be submitted as a single request covering the entire sum of the extra profit. Any request that does not comply with this requirement will be rejected.

- Under any circumstances, the maximum amount of profit that can be withdrawn under this plan is capped at five times the deposited amount. Any profits above this threshold will be deducted from the user's account.

Example:

A trader deposits USD 1,000 into their account and receives an additional USD 400 in credit as a bonus.

Balance: \$1000

Credit: \$400

Equity: \$1400

After the bonus period, the trader's equity reaches USD 7,000. When they request a withdrawal, the USD 400 bonus is deducted. That leaves USD 3,000 (the original USD 1,000 deposit plus USD 2,000 in profit, which equals double the deposit) available for withdrawal with no conditions.

To withdraw an extra USD 3,000 in profits (beyond twice the deposit, up to five times the deposit), the trader must complete 300 standard lots in total (one standard lot per USD 10 of additional profit), each trade having at least a 10-pip move and remaining open for at least 10 minutes.

Any USD 400 above the five-times limit is also deducted from the account.

Conditions for Using and Withdrawing Profits in the Fund refund plan

- The trading credit provided under the Fund refund plan (which is loss-bearing yet non-withdrawable) can be used for up to one month after it has been granted. This credit will be issued within a maximum of five business days after a **margin call** occurs.
- Any profits up to the total amount of the granted credit can be withdrawn without additional requirements, as long as all specific bonus conditions mentioned in this document and the general trading rules of ITBFX Broker are met.
- To withdraw profits beyond the credited amount, for every USD 10 of extra profit, the user must complete at least one standard lot per trade, with a minimum price movement of 10 pips (difference between the opening and closing prices) and a minimum duration of 10 minutes for each position.

- Requests to withdraw profits exceeding the credited amount must be made in a single request, covering the entire extra profit. Any request not meeting this requirement will be rejected.
- The maximum amount of profit that can be withdrawn under the Fund refund plan is three times the credited amount. Any profit exceeding this limit will be deducted from the user's account.

Trader Obligations for claim the 40-41 Campaign:

- Traders commit not to use this bonus for hedging or scalping trades and will only use it for regular trades. Also, automated trading (using robots) is not allowed. ITBFX Broker reserves the right to cancel or modify the bonus at any time without prior notice in case of suspected abuse.
- Traders agree that by receiving this bonus, they have read and understood all the terms and conditions of receiving the bonus and acknowledge that they will also comply with all trading rules and regulations at ITBFX Broker, available for download on the website.

ITBFX Broker is committed to providing this bonus to all eligible users and will not impose any additional requirements without notification. Users can contact the ITBFX support team through the following communication channels for more information on how to receive the bonus.
